Quentin Bullens
PhD psychologist
Associate Professor
Research coordinator

WP3 project coordinator
From March the 1st
Part time
For HEPN
HAUTE ÉCOLE DE LA PROVINCE DE NAMUR

**Brief reminder**

WP3

*Implementation of innovative tools*
*and change of culture in the mental health sector*

*—> Risk!?*

*Reject*
*(€conomic)*
*Ethic*

Introducing the WP3 Tools implementation

**Brief reminder**

WP3

*Implementation of innovative tools*
*and change of culture in the mental health sector*

Reject
(€conomic)
Ethic

—> *Risk!?*

1. In situ trainings for professionals (content and documents) / simulation
2. Development of a job profile of eMental health referent
3. Integrate the sensitization of the future professionals
4. Implementation of innovative tools

## Introduction

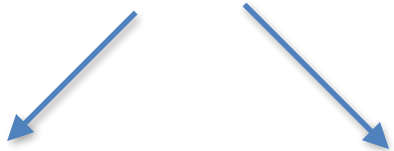
1. Test implementation

2. Think implementation
(or maybe organize it ?)

3. ethical aspects

## Method - 1. Test Implementation

- Use current clinical digital test to better understand professionnals
- By exemple : SedaKit oncomfort - Digital Sedation



~~Validation of the tool~~ Implementation of the tool

## Method - 1. Test Implementation

- By exemple : SedaKit oncomfort - Digital Sedation

Implementation of the tool

TO : H0 = digital solutions are not preferentially cited for anxiety management.
Qualitative approach = what's their opinion about digital solution ?

T1 : crtl group (classic method) and experimental group (digital tool)

T2: test the H0
Is their opinion evoluate about digital solution.

T3: (evaluate if change are stable over time.)

## Method - 1. Test Implementation

TO : H0 = digital solutions are not preferentially cited for anxiety management.
Qualitative approach = what's their opinion about digital solution ?

T1 : crtl group (classic method) and experimental group (digital tool)

T2: test the H0
Is their opinion evoluate about digital solution.

T3: (evaluate if change are stable over time.)

population —> students
—> trainees
—> professionnals

**—> toward application on WP2 (test sites)**

## Method 2. Organize the implementation

brakes & forces

IT

create new ways of learning

job profile
& training

academics students

eECTS ?

## Method 2. Organize the implementation

ACADÉMIE
DE RECHERCHE ET
D'ENSEIGNEMENT
SUPÉRIEUR

FÉDÉRATION
WALLONIE-BRUXELLES
LE PARLEMENT

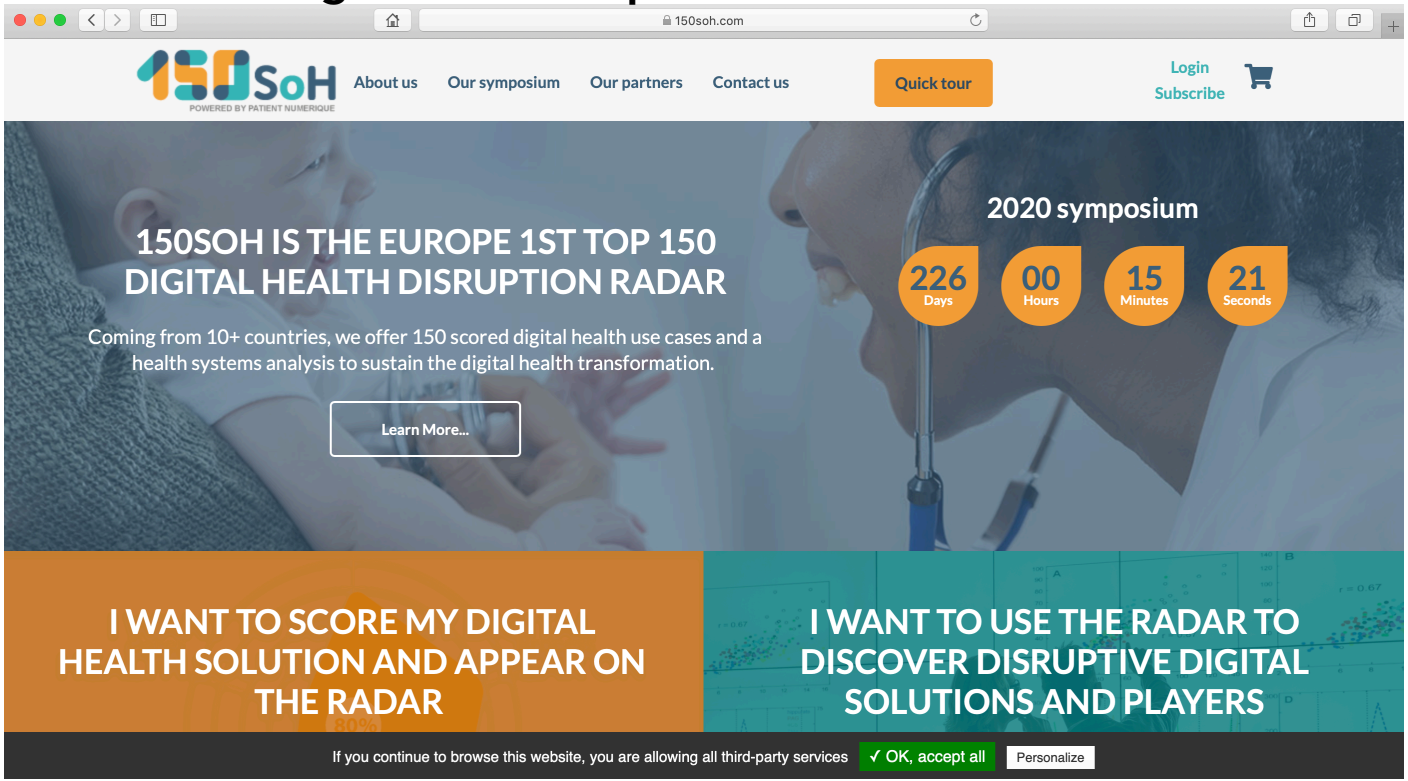
Introducing the WP3 Tools implementation

# Method 2. Organize the implementation

# Method 2. Organize the implementation

# Introducing the WP3 Tools implementation

## Method 2. Organize the implementation

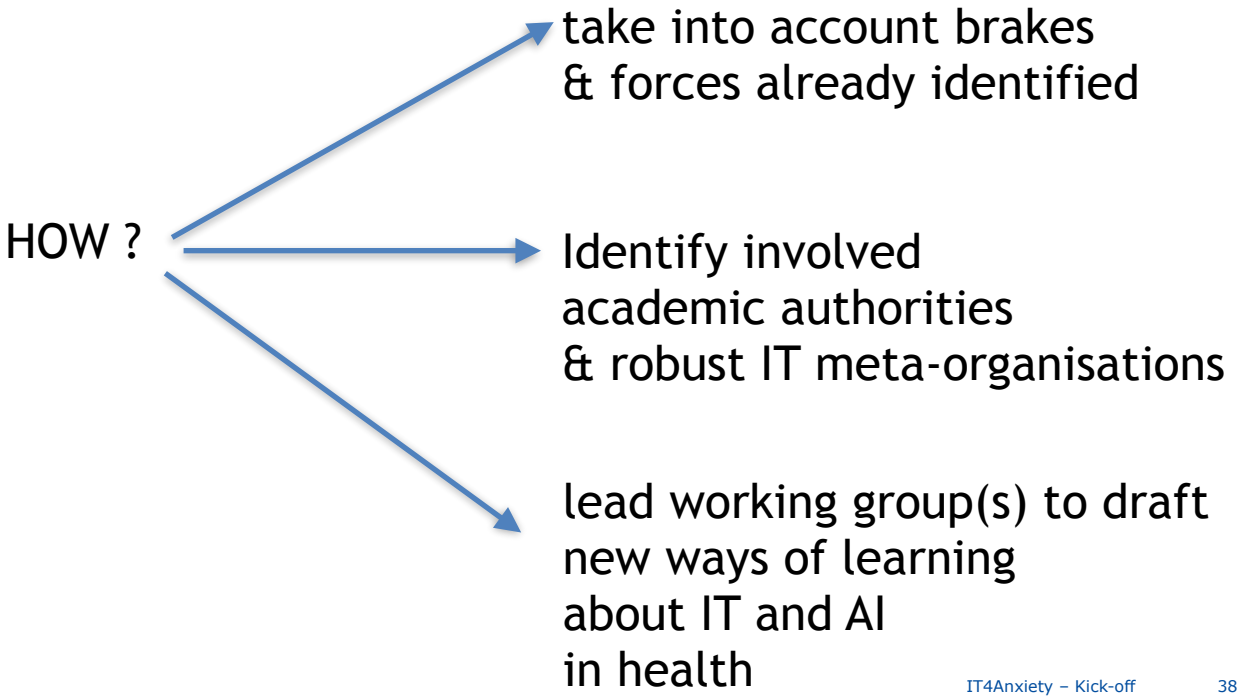


WP3 is not to identify blocking points or strengths but to allow IT actors and politicians to build bridges for implementation.

# Method 2. Organize the implementation

## Method 2. Organize the implementation

WP3 is not to identifies brakes and forces but to allow IT actors and politicians to build bridges for implementation.



## Method 2. Organize the implementation

new institutionnal ways of learning
is NOT ways of teaching
BUT institutional framework

professionnals need:
- time
- institutionnal recognition
- people from the IT sector directly relevant to their field

## Method 3. Ethical aspects

CNP would create a international committee

HEPN currently wants to better organize its ethical procedure

- ooops too late, the train enters the station… Sorry!

- That’s what we think today… but let’s see what it will be tomorrow with your lightening… as I said:

# Wrap up

Thank you for your
attention!
